

 <p>Azure Summit Technology azuresummit.com</p>	<p>AZURE SUMMIT TECHNOLOGY Fairfax, VA • Phone (571) 308-1400 • info@azuresummit.com</p> <p>Azure's Switchblade family of Intelligent Transceivers comprises a flexible suite of Processor Cards (including 6U VPX, 3U VPX, small brick and other form factors), and interchangeable tuner modules that provide RF, digital, and high-performance embedded computing (HPEC) capabilities for RF applications, such as SIGINT, radar, and communications, fully integrated into a single low-cost SWAP card.</p>
 <p>AXILLON AEROSPACE STRENGTH THROUGH INNOVATION Axillonaerospace.com</p>	<p>Axillon Aerospace (Baltimore) 669 Goodyear Ave, Rockmart, GA 30153 • Phone (678) 757-3153 • info@axillonaerospace.com</p> <p>Axillon Aerospace has the unique ability to move from material selection into full production with streamlined processes and unique design, manufacturing, and material science IP. Axillon can work as a Development Partner all the way through to Volume Production Supplier, providing everything from Idea Generation to Feasibility Evaluation to full Development.</p>
 <p>CTT INC A KRITOS Company cttinc.com</p>	<p>CTT, INC. San Jose, CA • Phone (408) 541-0596 / Fax (408) 541-0794</p> <p>RF & Microwave Solid State Amplifiers - Power & LNA's. Integrated assemblies, Contract Manufacturing. Military, High-Rel and Commercial.</p>
 <p>ER&D Esterline Research and Design esterlineresearch.com</p>	<p>Esterline Research and Design, LLC 25 E Lisburn Rd., Mechanicsburg PA 17055 Tel: 717-348-5326</p> <p>Esterline Research and Design is at the forefront of RF system production testing. We offer both a wide array of testing services, as well as advanced RF test gear to streamline your production challenges and improve throughput. We provide a full line of frequency control products, specializing in high-precision oscillators tailored for rugged environments. Our expertise extends to our intellectual property, which includes a revolutionary software compensation algorithm, M-SAC, which dramatically enhances oscillator performance and is available for licensed usage in customer designs.</p>
 <p>filtronic filtronic.com</p>	<p>Filtronic United Kingdom Tel: 410-202-8811</p> <p>Filtronic designs and manufactures mmWave sub-systems for aerospace, defense, space, and telecoms. They specialize in transceivers, filters, SSPAs, MMICs, and SIPs.</p>
 <p>gotMIC gotmic.se</p>	<p>gotMIC Sweden • Phone +46 (0) 31 184 030</p> <p>High frequency/high performance MMW MMICs from 55-120 GHz. Offering a wide range of MMIC solutions including Transceivers, Transmitters, Receivers, LNAs, PAs, Mixers and Switches for both the E and V Communication Bands. Offering both COTS and Custom MMIC products that can be delivered as die or packaged surface mount solutions.</p>
 <p>HASCO COMPONENTS hasco-inc.com</p>	<p>HASCO Components 5214 Bonsai Avenue, Moorpark CA, 93021 • Phone (805) 529-5085</p> <p>Distributor – SMA, 3.5mm 2.92mm, 2.40mm & 1.85mm Coaxial Connectors & Adapters, Waveguide Components, Cable Assemblies, Attenuators, Terminations, DC Blocks, Directional Couplers, Power Divider / Splitters, Standard & Custom Glass-to-Metal Hermetic Feed-thrus.</p>

 <p>microtech-inc.com</p>	<p>MICROTECH, INC. Cheshire, CT • Phone (203) 272-3234 / Fax (203) 271-0352</p> <p>Custom and Standard Flexible and Rigid Waveguide components and assemblies to 110 GHz. Rotary Joints, Pressure Windows, Double-ridged Waveguide, Waveguide Terminations and Standard Gain Horns.</p>
 <p>Microwave Components, Inc. mcicoils.com</p>	<p>Microwave Components, Inc. Dracut, MA • Phone (978) 453-6016</p> <p>Microwave Components, Inc. (MCI) in Dracut, MA is a small, veteran owned manufacturer of miniature air coils. MCI has proudly been delivering custom, high Q, miniature air inductors to the Aerospace, Defense, and Space markets since 1978. Materials include: bare and insulated gold, copper, silver, gold plated copper, nickel copper alloy, and aluminum wire. Inductances from 1 to 1000+ nH</p>
 <p>monzite.com</p>	<p>MONZITE CORPORATION Nashua, NH • Phone (603) 689-1414</p> <p>Custom Analog Circuits, PIN Diode GaN Switch Drivers, DC-DC Converters, V generators, Voltage Multipliers, Laser Diode Driver, Contract Manufacturing and Test, Hybrid Hermetic Microcircuits, RF/Microwave/Millimeterwave Components Manufacturing, Wire bonding SMO Chip Scale Assembly, RF/Microwave Test.</p>
 <p>pixustechnologies.com</p>	<p>Pixus Technologies Waterloo, Ontario • Phone (519) 885-5775 / Fax (226) 444-0225</p> <p>A leading provider of OpenVPX chassis platforms, backplanes, and system accessories. COTS modular open standard enclosure solutions in MIL rugged and industrial formats. Specializes in advanced cooling, high-speed backplane design including VITA 66, VITA 67, and SOSA options.</p>
 <p>southwestmicrowave.com</p>	<p>SOUTHWEST MICROWAVE INC. Tempe, AZ • Phone (800) 587-5995 / Fax (480) 783-0360</p> <p>Super SMA & High Temp SMA, SSMA, 2.92mm, 2.40mm, 1.85mm, TNC & BMA Connectors & Adapters to 65 GHz, Connector Savers in SMA, 2.92mm & 2.40mm.</p>
 <p>ssicable.com</p>	<p>SSI CABLE CORP Shelton, WA • Phone (360) 426-5719 / Fax (360) 426-5912</p> <p>Flexible & Semi-rigid low loss & phase stable Cables. Specializing in Stainless Steel Jacketed Semi-Rigid and phase stable cable.</p>
<p>SYMPHONY Microwave Technologies symphony-microwave.com</p>	<p>Symphony Microwave Technologies Nashua, NH • Phone (603) 417-3940</p> <p>Symphony Microwave Technologies, LLC designs & manufactures passive components with an emphasis on high-power applications. Our products include circulators, isolators, loads, windows and directional couplers in waveguide and coaxial modes of operation.</p>
 <p>werbelmicrowave.com</p>	<p>Werbel Microwave Whippany, NJ • Phone (973) 515-3001 / Fax (973) 515-3004</p> <p>Werbel Microwave has designed and produced high performance radio frequency components for defense, commercial, test and measurement applications. Werbel Microwave offers COTS and custom designed microwave components.</p>
